Water Conservation Specialists  
Established 1979

Leak Surveys • Leak Pinpointing • Utility Location • Hydrant Flow Testing • Water Main Flushing  
Valve Assessment Programs • GPS-GIS Mapping Surveys • Location Equipment Sales and Expert Training

## 30 Years of Experience and Unsurpassed Accuracy Pinpointing Leaks and Locating Underground Utilities

### Scheduled and Emergency Leak Pinpointing Services

Got a pressure test leak that prevents your water system from passing? Maybe there is other evidence of a leak. You can't afford to guess.

- Expertise, experience and availability 24 hours a day - 365 days a year.
- Our fleet of fully-equipped Leakmobiles is *always ready* to provide *Fast Response* across town or across the country.
- Unmatched 96% accuracy pinpointing nearly a half-million leaks of all sizes and types within the first excavation.
- All ultrasonically detected leaks are electronically pinpointed with computerized **FCS Leak Correlator Systems**. All utility lines are accurately traced with **Radiodetection Location Systems**.
- **ATS pinpoints leaks and traces utilities in the toughest situations that stymie other firms.**

ATS Fleet of Leakmobiles - Always ready to roll at a moment's notice

"Critical Dig" Location Specialists

### ATS Utility Location Services

Water	Cable	Electric	Gas	Sewer	Telephone
-------	-------	----------	-----	-------	-----------

Trained ATS Technicians can perform isolated spot utility locations or a comprehensive utility location survey of an entire project site.

- Pinpoint Locations in the Field
- Locate Undocumented Utilities
- "Critical Digs" - Avoid Existing Utilities with Precise Locations
- GIS / GPS Site Location Surveys
- Ground Penetrating Radar Surveys
- **ATS can pick up where "JULIE" leaves off with superior accuracy.**
- Verify Existing Drawings
- CCTV Full-Color Inspections with DVD Voice-Over Recording
- Pinpoint Sewer Blockages
- Locate Buried Appurtenances

### Location Equipment Sales & Training

- Ultrasonic Leak Detection and Leak Location Correlator Systems.
- High Performance Ferro-Magnetic Metal Locators
